

Supply Issues Update for Primary and Secondary Care: December 2021

This report has been produced by the Department of Health and Social Care (DHSC) Medicine Supply Team. We aim to produce this report monthly to provide an update on current primary and secondary care medicine supply issues that we are working on. This information is confidential to the NHS; please do not upload to websites in the public domain. Please do share with relevant colleagues and networks.

DHSC and NHSE/I have now launched an online [Medicines Supply Tool](#), which provides up to date information about medicine supply issues. The contents of this report can now be viewed on the Tool. To access the Tool you will be required to register with the [SPS website](#).

Therefore, we plan to stop issuing the monthly supply issues update. **The last monthly update will be issued in February 2022.**

Where it has been stated ‘*a Serious Shortage Protocol (SSP) has been issued*’, this will be found [here](#).

Contents

New Issues	3	Conjugated oestrogens with medroxyprogesterone (Premique Low Dose) 0.3mg/1.5mg modified release tablets	5
Injectables	3	Prazosin (Hypovase) 500microgram tablets ..	5
Heparin sodium 500units/500ml & 2,000units/L infusion bags.....	3	Sulfasalazine (Salazopyrin-EN) gastro-resistant 500mg tablets	5
Idarubicin (Zavedos) 5mg and 10mg powder for solution for injection.....	3	Others	5
Ketorolac 30mg/1ml solution for injection ampoules	3	Diclofenac (Voltarol Ophtha Multidose) 0.1% eye drops 5ml	5
Mivacurium 2mg/ml solution for injection ampoules	4	Estradiol (Estring) 7.5micrograms/24hours vaginal delivery system.....	5
Promethazine (Phenergan) 25mg/ml solution for injection	4	Ongoing Issues	5
Sarilumab (Kevzara) 200mg/1.14ml solution for injection pre-filled syringes – unlicensed supply for the treatment of COVID-19	4	Injectables.....	5
TICE strain Bacillus of Calmette-Guerin (OncoTICE) 12.5mg powder for reconstitution for instillation vials	4	Adrenaline 1mg/ml (1:1000) solution for injection pre-filled syringes (PFS) (1mL)	5
Orals.....	4	Adrenaline 150microgram (Emerade) auto-injectors	6
Atorvastatin (Lipitor) 20mg chewable tablets	4	Bleomycin 15,000unit powder for solution for injection vials	6
		Calcitonin (salmon) 50units/1ml solution for injection ampoules	6
		Diamorphine 5mg injections.....	6
		Diazepam (Diazemuls) 10mg/2ml emulsion for injection.....	6

COMMERCIAL-SENSITIVE

Enoxaparin (Clexane) pre-filled syringes (various strengths).....	6	Fluoxetine 10mg tablets	10
Human normal Immunoglobulin (IVIg).....	7	Histamine (H2) antagonists.....	10
Lidocaine 200mg/20ml (1%) with adrenaline 100micrograms/20ml (1 in 200,000) (Xylocaine 1%) solution for injection vials.....	7	Hormone Replacement Therapy products (HRT)	10
Medroxyprogesterone (Sayana Press) 104mg/0.65mL suspension for injection pre-filled syringe	7	Kolanticon Gel.....	11
Mitomycin 2mg and 10mg injection.....	7	Metformin 500mg/5ml oral solution.....	11
Mitoxantrone 2mg/ml solution for infusion vials	7	Phenelzine sulphate (Nardil) 15mg tablets.	11
Ranitidine 50mg/2ml injection	8	Ranitidine oral preparations	12
Sodium calcium edetate 500mg/10ml injection	8	Sodium cromoglicate (Nalcrom) 100mg capsules.....	12
Tetracosactide (Synacthen Depot) 1mg depot injection	8	Tapentadol (Palexia) 20mg/ml oral solution	12
Tinzaparin sodium (10,000 IU/ml) 3,500 IU in 0.35 ml and 4,500 IU in 0.45 ml pre-filled syringes.....	8	Tuberculosis (TB) oral agents.....	12
Tocilizumab (RoActemra) 162mg/0.9ml solution for injection pre-filled syringes and pre-filled pens.....	8	Varenicline (Champix) 0.5mg and 1mg tablets	12
Tocilizumab (RoActemra) 80mg, 200mg and 400mg solution for infusion vials	8	Others	12
Urokinase (Syner-KINASE) 10,000IU and 25,000IU injection	9	Desmopressin (Octim) 150microgram/actuation nasal spray.....	12
Verteporfin (Visudyne) 15mg powder for solution for infusion	9	Fentanyl (Instanyl) 50 microgram, 100 microgram and 200 microgram nasal sprays	12
Voriconazole 200mg injection	9	Flumetasone/clioquinol (Locorten Vioform) 0.02%/1% ear drops solution.....	13
Orals.....	9	Gentamicin 0.3% and hydrocortisone acetate 1% (Gentisone HC) Ear Drops	13
Cetirizine 1mg/ml oral solution sugar free....	9	Hydrocortisone 0.2% w/w and lidocaine hydrochloride monohydrate 1.0% w/w (Perinal) cutaneous spray	13
Chloral hydrate 143.3mg/5ml oral solution ..	9	Lidocaine 5%/hydrocortisone 0.275% (Xyloproct) ointment	13
Clomifene (Clomid) 50mg tablets.....	9	Vaccines	13
Cloral betaine 707mg tablets	9	Discontinuations	13
Colestipol (Colestid) plain 5g granules sachets	10	Barium sulfate (Baritop 100) 100% oral suspension and Barium sulfate (Baritop Plus 94.6) 94.6% granules for suspension	13
Colestyramine (Questran) Powder for Oral Suspension.....	10	Carbimazole 20mg tablets	14
Contraceptive products (oral)	10	Desmopressin (DDAVP) 0.01% w/v intranasal solution	14
		Sodium cromoglicate (Intal) CFC-free 5mg inhaler	14

COMMERCIAL-SENSITIVE

Resolved	14	Latanoprost 50micrograms/ml / timolol 5mg/ml eye drops (Fixapost) 0.2ml unit dose preservative free eye drops (12/11/21)	14
Cimetidine 200mg tablets (22/11/21)	14	Mesalazine (Asacol) 800mg MR gastro- resistant tablets (24/11/21).....	14
Cimetidine 400mg tablets (22/11/21)	14	Palivizumab (Synagis) 100mg/1ml and 50mg/0.5ml solution for injection vials (29/11/21).....	14
Desferrioxamine 2g injection vials (8/11/21)	14	Appendix	15
Dimeticone 22%/benzalkonium chloride 0.1% (Conotrane) cream (23/11/21).....	14	Table 1: HRT availability and anticipated resolution dates	15
Ethinylestradiol 30 micrograms/gestodene 75 micrograms (Femodene ED) tablets (30/11/21)	14		
Heparin calcium solution for injection 5000unit/0.2ml preservative free (26/11/21)	14		

Information provided: w/c 29 November 2021

New Issues

Injectables

Heparin sodium 500units/500ml & 2,000units/L infusion bags

- Heparin sodium 500units/500ml & 2,000units/L infusion bags are out of stock until w/c 6 December 2021
- Heparin sodium 1,000units/500ml & 5,000units/L infusion bags remain available but are unable to support an uplift in demand.
- Heparin sodium 1,000units/1ml ampoules remain available and can be used with 0.9% w/v sodium chloride bags to make up infusion bags manually in clinical areas.
- A Medicine Supply Notification (MSN) was issued 26 November 2021 (attached).

Idarubicin (Zavedos) 5mg and 10mg powder for solution for injection

- Zavedos 5mg and 10mg powder for solution for injection is out of stock until January 2022.
- Pfizer have sourced Australian Zavedos 5mg/5ml and 10mg/10ml solution for injection in sufficient quantities to ensure continuity of supply during this period. This product is considered unlicensed in the UK.
- An MSN was issued 26 November 2021 (attached).

Ketorolac 30mg/1ml solution for injection ampoules

- Baxter are out of stock of ketorolac 30mg/1ml injection until 1 March 2022.
- Pharmanovia, the only other licensed supplier, will be out of stock from mid-December until February 2022, exact resupply date to be confirmed.
- Specialist importers have indicated that unlicensed imports can be sourced, lead times vary.
- An MSN was issued 18 November 2021 (attached).

COMMERCIAL-SENSITIVE

Mivacurium 2mg/ml solution for injection ampoules

- Aspen, sole supplier is out of stock of mivacurium 2mg/ml injection until w/c 20 December 2021.
- Alternative neuromuscular blocking agents are available.
- Specialist importers have indicated that unlicensed imports can be sourced, lead times vary.
- An MSN was issued 26 November 2021 (attached).

Promethazine (Phenergan) 25mg/ml solution for injection

- Promethazine 25mg/ml solution for injection is out of stock until w/c 13 December 2021.
- If local stock holding and regional mutual aid, facilitated by the Regional Pharmacy Procurement Specialists, cannot meet anticipated local demand until re-supply, organisations should take action to switch to alternative agents.
- An MSN was issued 2 December 2021 (attached).

Sarilumab (Kevzara) 200mg/1.14ml solution for injection pre-filled syringes – unlicensed supply for the treatment of COVID-19

- Unlicensed supplies of sarilumab (Kevzara) 200mg/1.14ml solution for injection pre-filled syringes sourced to treat patients with COVID-19, will be out of stock from w/c 6 December 2021. There is no confirmed resupply date.
- See below for information on supplies of tocilizumab (RoActemra) solution for infusion vials.
- Supplies of UK licensed sarilumab (Kevzara) pre-filled syringes and pre-filled pens remain available for licensed indications only and should not be used to treat patients with COVID-19 .
- An MSN will be issued shortly.

TICE strain Bacillus of Calmette-Guerin (OncoTICE) 12.5mg powder for reconstitution for instillation vials

- Supplies of OncoTICE are unable to meet full UK demand and weekly wholesaler quotas have been applied to all customers to restrict supplies to 90% of usual requirement for the foreseeable future.
- Although quotas are already in place, until the next OncoTICE delivery arrives late December/early January 2022, some hospitals may not be able to receive their weekly 90% allocation due to limited supplies remaining this month.
- The British Association of Urological Surgeons (BAUS) have developed clinical guidelines on risk stratification to aid patient prioritisation.
- Specialist importers have indicated that unlicensed imports can be sourced, lead times vary.
- An MSN was issued 3 December 2021 (attached).

Orals

Atorvastatin (Lipitor) 20mg chewable tablets

- Lipitor 20mg chewable tablets are out of stock until late December 2021.
- Lipitor 10mg chewable tablets remain available but cannot support a full uplift in demand.
- Atorvastatin 20mg film-coated tablets also remain available and can support an increased demand.
- Supplies of atorvastatin 20mg/5ml oral suspension, a manufactured special, can also be sourced. Lead times vary.
- An SSP was issued on 17 November 2021.
- An MSN was issued 18 November 2021 (attached).

COMMERCIAL-SENSITIVE

Conjugated oestrogens with medroxyprogesterone (Premique Low Dose) 0.3mg/1.5mg modified release tablets

- Pfizer, the sole supplier of Premique Low Dose, have limited supplies available until w/c 10 January 2022.
- Other HRT preparations remain available.
- Further communications will be shared shortly.

Prazosin (Hypovase) 500microgram tablets

- Hypovase 500 microgram tablets are out of stock until mid-January 2022. Pfizer are the sole supplier of prazosin 500 microgram tablets in the UK.
- Alternative alpha blockers remain available and can support an uplift in demand.
- Specialist importers have indicated that unlicensed imports can be sourced, lead times vary.
- A [Supply Disruption Alert](#) (SDA) was issued on 25 November 2021.

Sulfasalazine (Salazopyrin-EN) gastro-resistant 500mg tablets

- Pfizer are out of stock of Salazopyrin EN-Tabs until w/c 20 December 2021.
- Generic versions of sulfasalazine 500mg gastro-resistant tablets remain available.
- An SSP was issued on 26 November 2021.
- An MSN was issued 29 November 2021 (attached).

Others

Diclofenac (Voltarol Ophtha Multidose) 0.1% eye drops 5ml

- Laboratoires Thea are out of stock until mid-March 2022.
- Voltarol Ophtha unit dose packs (preservative free) remain available and can fully support during this time.

Estradiol (Estring) 7.5micrograms/24hours vaginal delivery system

- Pfizer, sole supplier, are out of stock of Estring vaginal delivery system until early January 2022.
- Alternative estradiol and estriol products remain available.
- An MSN will be issued shortly.

Ongoing Issues

Injectables

Adrenaline 1mg/ml (1:1000) solution for injection pre-filled syringes (PFS) (1mL)

- Adrenaline 1:1000 injection pre-filled syringes are out of stock until late February 2022.
- Adrenaline 1:1000 solution for injection ampoules (1mL) remain available and can support an uplift in demand.

COMMERCIAL-SENSITIVE

Adrenaline 150microgram (Emerade) auto-injectors

- There are currently sufficient supplies of Jext and EpiPen Junior to meet normal UK demand for adrenaline 150microgram auto-injectors.
- The advice remains to conserve supplies of AAI for patients who truly need them. All healthcare professionals providing services where anaphylaxis treatment may be required should have the competency to draw up and administer adrenaline from ampoules with a normal syringe and needle.
- We ask that when you renew the adrenaline in your anaphylaxis kits, you alert all your staff to please stock ampoules (ensuring you also include dosing charts, needles and syringes) and not AAIs.
- The [Green Book](#) and [Resus Council guidance](#) provides additional advice to healthcare professionals on the use of adrenaline in response to anaphylaxis.

Bleomycin 15,000unit powder for solution for injection vials

- Accord, sole supplier, remains out of stock of bleomycin 15,000unit injection until at least mid-2022.
- Specialist importers can source unlicensed products. Lead times vary.
- An updated MSN was issued 14 June 2021 (shared previously).

Calcitonin (salmon) 50units/1ml solution for injection ampoules

- Essential Pharma, sole supplier, is out of stock of calcitonin 50units/1ml injection until March 2022.
- Calcitonin (salmon) 100units/1ml solution for injection ampoules remain available and can support the uplift in demand.

Diamorphine 5mg injections

- Diamorphine 5mg ampoules are out of stock until early January 2022.
- Diamorphine 10mg, 30mg and 100mg ampoules remain available however are unable to support an uplift in demand.
- An MSN, reminding clinicians of the permanent actions they were asked to take in the [SDA](#) for diamorphine ampoules issued 25 March 2020, was issued on the 29 November 2021 (attached).

Diazepam (Diazemuls) 10mg/2ml emulsion for injection

- Diazemuls 10mg/2ml emulsion for injection is out of stock long term.
- Lorazepam 4mg/ml solution for injection is available and able to support a full uplift in demand.
- Unlicensed imports of diazepam 10mg/2ml emulsion for injection can be sourced. Lead times vary.
- An updated MSN was issued 27 May 2021 (shared previously).

Enoxaparin (Clexane) pre-filled syringes (various strengths)

- A shortage of the ERIS automatic safety system will impact the availability of several Clexane pre-filled syringes until October 2022 (list below):
 - 4,000IU (40mg/0.4ml)
 - 6,000IU (60mg/0.6ml)
 - 8,000IU (80mg/0.8ml)
 - 10,000IU (100mg/1ml)
- To mitigate the supply issue during this period, Sanofi will supply Clexane with the PREVENTIS automatic safety system for the affected presentations only. This will be a UK licensed product.
- Other brands of enoxaparin biosimilars remain available but cannot support an uplift in demand.
- Organisations who use Clexane should prepare to have syringes with two different safety devices in use across the portfolio and ensure appropriate communication and training of health care

COMMERCIAL-SENSITIVE

professionals and patients is undertaken before September. The Sanofi Dear Health Care Professional letter was shared previously.

- An MSN was issued 27 July 2021 (shared previously).

Human normal Immunoglobulin (IVIg)

- There is a decreased volume of some presentations of immunoglobulin leading to a shortfall until December 2021 (exact date TBC).
- Trust level allocations have been cascaded to all Trusts in England.
- Trusts are advised to assess patients who require long term immunoglobulin therapies and use allocations to minimise the need to switch between presentations and brands.
- An MSN was issued 19 July 2021 (shared previously).

Lidocaine 200mg/20ml (1%) with adrenaline 100micrograms/20ml (1 in 200,000) (Xylocaine 1%) solution for injection vials

- Xylocaine 1% with adrenaline is out of stock until March 2022.
- Xylocaine 2% with adrenaline currently remains available but is likely to be out of stock by the end of December 2021. Resupply is expected mid-January 2022.
- Alternative licensed products containing bupivacaine and adrenaline remain available. Where these are not suitable, unlicensed alternatives may be sourced.
- An updated MSN was issued 8 November 2021 (attached).

Medroxyprogesterone (Sayana Press) 104mg/0.65mL suspension for injection pre-filled syringe

- Pfizer, sole supplier is out of stock until w/c 27 December 2021.
- Depo-Provera (medroxyprogesterone acetate 150mg/mL) remains available and can support the market during this time, should clinicians deem a switch appropriate.

Mitomycin 2mg and 10mg injection

- Mitomycin 2mg and 10mg vials are out of stock with no date for resupply.
- Other vial sizes of mitomycin for injection and/or infusion remain available including 20mg from Vygoris Ltd via Mawdsley's and 40mg from Accord-UK Ltd.
- Mitomycin for intravesical use remains available including 20mg from Vygoris Ltd and 40mg from Medac GmbH.
- Specialist importers can source unlicensed products. Lead times vary.
- An updated MSN was issued 24 December 2020 (shared previously).

Mitoxantrone 2mg/ml solution for infusion vials

- Pfizer and Baxter Healthcare are out of stock of mitoxantrone 2mg/ml solution for infusion, 20mg and 25mg vials. Full market resupply is expected mid-December 2021.
- Baxter can support full market demand of both 20mg and 25mg vials from mid-December 2021.
- Trusts should take actions to conserve stock of mitoxantrone for patients who have commenced a course of treatment and only initiate new patients once further stock has been obtained.
- Specialist importers have indicated that unlicensed imports can be sourced, lead times vary.
- An MSN was issued 5 October 2021 (shared previously).

COMMERCIAL-SENSITIVE

Ranitidine 50mg/2ml injection

- Ranitidine 50mg/2ml injection is out of stock until further notice.
- An updated MSN was issued 30 March 2021 (shared previously).
- Further advice on alternative intravenous acid suppressants for paediatric patients can be found via the SPS website [here](#).

Sodium calcium edetate 500mg/10ml injection

- Sodium calcium edetate 500mg/10 ml injection is only available as an unlicensed preparation and is unavailable until late 2022.
- Mawdsley's have sourced an alternative unlicensed product from Italy, but this is a higher strength preparation of sodium calcium edetate (1000mg/10ml). This product is available to order.
- The product information has been translated into English and clinical specialists consider this an appropriate replacement, albeit at a higher strength.
- The prescribing information in the SPC for this unlicensed product may not reflect UK practice.
- Toxbase and Medusa monographs have been amended to highlight availability of the higher strength product.
- Trusts are advised to work with their procurement teams and Medication Safety Officers to ensure any existing stock of the 500mg/10 ml product is not stored with this higher strength product to reduce risk of dosing errors and protocols/guidelines amended to reflect use of this higher strength product.

Tetracosactide (Synacthen Depot) 1mg depot injection

- Atnahs Pharma, sole supplier, are out of stock with resupply expected February 2022.
- Specialist importers can source unlicensed products. Lead times vary.

Tinzaparin sodium (10,000 IU/ml) 3,500 IU in 0.35 ml and 4,500 IU in 0.45 ml pre-filled syringes

- Tinzaparin sodium 3,500units in 0.35 ml and 4,500units in 0.45 ml pre-filled syringes are out of stock until January 2022 (exact date TBC).
- All other presentations of tinzaparin remain available.
- Organisations who use tinzaparin for both prophylaxis and treatment of venous thromboembolism will need to consider if they wish to switch to an alternative low molecular weight heparin (LMWH) for all indications or just for prophylaxis.
- A Supply Disruption Alert ([SDA](#)) was issued 29 July 2021.

Tocilizumab (RoActemra) 162mg/0.9ml solution for injection pre-filled syringes and pre-filled pens

- RoActemra 162mg/0.9ml solution for injection pre-filled syringes and pre-filled pens are in limited supply until January 2022.
- An [SDA](#) was issued on 25 October 2021.

Tocilizumab (RoActemra) 80mg, 200mg and 400mg solution for infusion vials

- RoActemra 80mg vials are out of stock with no confirmed resupply date.
- Limited supplies of RoActemra 200mg and 400mg vials are currently available with full resupply expected mid-December 2021.
- Allocations have been put in place at a trust level, to safeguard remaining stock.
- Unlicensed supplies of sarilumab (Kevzara) 200mg/1.14ml solution for injection pre-filled syringes sourced to treat patients with COVID-19, will be out of stock from w/c 6 December 2021 (see information above).

COMMERCIAL-SENSITIVE

- An updated MSN will be issued shortly.

Urokinase (Syner-KINASE) 10,000IU and 25,000IU injection

- Syner-KINASE 10,000IU and 25,000IU injection are out of stock until March 2022.
- Syner-KINASE 100,000IU injection remains available and can support an uplift in demand (see DHCP shared previously).
- Details of other suggested alternative products, if required, can be found on the [SPS portal](#).
- An MSN was issued 27 May 2021 (shared previously).

Verteporfin (Visudyne) 15mg powder for solution for infusion

- UK licensed Visudyne is out of stock with limited supplies expected during December 2021.
- Unlicensed imports cannot currently be sourced by specialist importer companies.
- An MSN was issued 27 May 2021 (shared previously).

Voriconazole 200mg injection

- Pfizer are out of stock until w/c 6 December 2021.
- Fresenius Kabi and Bowmed are in stock but cannot support an uplift in demand.
- Specialist importers have indicated that unlicensed imports can be sourced, lead times vary.
- An updated MSN was issued 22 October 2021 (shared previously).

Orals

Cetirizine 1mg/ml oral solution sugar free

- There are currently limited supplies of cetirizine 1mg/ml oral solution.
- Cipla have limited supplies of cetirizine 1mg/ml oral solution (200ml) which are being supplied to NHS England and Scotland contracts and are expecting resupplies by w/c 13 December 2021.
- UCB Pharma are currently in stock of cetirizine 1mg/ml oral solution (150ml and 200ml).
- Pinewood are currently out of stock of cetirizine 1mg/ml oral solution (200ml), with further resupplies due in January 2022.
- Alternative suppliers remain in stock of cetirizine 1mg/ml oral solution (70ml).

Chloral hydrate 143.3mg/5ml oral solution

- Chloral hydrate 143.3mg in 5ml oral solution is out of stock until February 2022.
- Specials manufacturers have confirmed they can manufacture chloral hydrate 143.3mg in 5ml oral solution to meet demand of the licensed product.
- An MSN was issued 30 March 2021 (shared previously).

Clomifene (Clomid) 50mg tablets

- Clomid 50mg tablets are out of stock until early January 2022.
- Generic clomifene 50mg tablets remain available and can support an uplift in demand.

Cloral betaine 707mg tablets

- Pharmanovia, sole supplier, are out of stock with resupply to be confirmed.
- Alternative medicines for insomnia remain available.

COMMERCIAL-SENSITIVE

Colestipol (Colestid) plain 5g granules sachets

- Colestid plain sachets are out of stock with a resupply date to be confirmed.
- Colestid orange sachets are currently available.
- SPS MI have prepared a [clinical memo](#) containing further information on alternative bile-acid sequestrants.
- An MSN was issued 26 February 2021 (shared previously).

Colestyramine (Questran) Powder for Oral Suspension

- Cheplapharm are out of stock of Questran Powder 4g sachets until April 2022.
- Specialist importers can source unlicensed products. Lead times vary.
- Colestyramine light 4g sugar free sachets remain available.
- SPS MI have prepared a [clinical memo](#) containing further information on alternative bile-acid sequestrants.

Contraceptive products (oral)

- See the table below for a summary of the supply position of oral contraceptive products.
- An updated MSN was issued 18 March 2021 (shared previously).

Product affected	Active ingredients	Anticipated resupply date	Management Advice
Qlaira	Estradiol valerate / Dienogest (various strengths)	w/c 18 Apr 2022	See SmPC- Qlaira for full list of ingredients. There are no exact equivalent preparations available in the UK market. Clinicians are advised to refer to CKS guidance and BNF for advice. Unlicensed imports have been sourced; lead times vary.

Fluoxetine 10mg tablets

- Endo Ventures are out of stock of fluoxetine 10mg tablets until June 2022.
- Fluoxetine 10mg capsules and fluoxetine 20mg/5ml oral solution remain available.
- An SSP was issued on 12 March 2020.
- An MSN was issued 12 March 2020 (shared previously).

Histamine (H2) antagonists

- Famotidine 20mg and 40mg tablets are currently available.
- Supplies of cimetidine 200mg and 400mg tablets are now available.
- Cimetidine 800mg tablets are out of stock until late December 2021. Specialist importers can source unlicensed products. Lead times vary.
- Cimetidine 200mg/5ml oral solution/syrup is currently available.
- Nizatidine 150mg and 300mg capsules are currently available.

Hormone Replacement Therapy products (HRT)

There are still some ongoing supply issues with HRT products, please see **Table 1** in the Appendix for a full update on the availability of all HRT products.

COMMERCIAL-SENSITIVE

Estradiol valerate (Progynova) 2mg tablets

- Bayer, sole supplier is out of stock of until w/c 6 December 2021.
- Limited supplies are available from some parallel importers.
- Progynova 1mg tablets remain available.

Ethinylestradiol 10microgram, 25 microgram, 50microgram and 1 milligram tablets

- UCB, sole supplier, is out of stock due to manufacturing issues and unable to advise a resupply date.
- Specialist importers can source unlicensed products. Lead times vary.

FemSeven Transdermal patch range

- Theramex have confirmed that FemSeven Mono 100 patches will be out of stock until end of 2021.
- FemSeven Sequi patches will be out of stock until Q1 2022.
- Specialist importers can source unlicensed products. Lead times vary.

Isosorbide mononitrate (Imdur) 60mg modified release tablets

- Topridge, sole supplier, is out of stock until the end of 2021.
- Parallel imports remain available as well as other brands of isosorbide mononitrate 60mg modified release tablets.
- If the brand is switched, reassure patients that they are receiving the same treatment and to seek advice in the unlikely event of experiencing an increase in side effects, such as headache, or an increase in use of glyceryl trinitrate.

Kolanticon Gel

- Kolanticon gel is out of stock until January 2022.
- Alternative preparations for symptomatic relief of gastro-intestinal disorders characterised by hyperacidity, smooth muscle spasm, including irritable bowel syndrome (IBS), and flatulence, remain available.
- An MSN was issued 16 June 2021 (shared previously).

Metformin 500mg/5ml oral solution

- Advanz Pharma have discontinued metformin 500mg/5ml oral solution due to further testing requirements necessitated by the potential presence of N-nitrosodiethylamine (NDMA) impurities.
- Rosemont Pharmaceuticals have recalled one batch of metformin 500mg/5ml oral solution due to the presence of NDMA impurities and are therefore out of stock due to further testing requirements.
- Limited supplies of metformin 500mg/5ml oral solution are expected to be made available mid-December 2021, however, this is unable to support full demand.
- Long term supply issues of metformin 500mg/5ml oral solution are expected.
- An MSN was issued 13 September 2021 (shared previously).

Phenelzine sulphate (Nardil) 15mg tablets

- Neon Healthcare, the new suppliers of Nardil are currently out of stock. A resupply date is to be confirmed.
- Specialist importers can source unlicensed imports of the tablets.
- Supplies of phenelzine 15mg capsule specials are also available. Further information can be found in the SDA.
- An [SDA](#) was issued 25 June 2020 and a subsequent update was issued 3 July 2020.

COMMERCIAL-SENSITIVE

Ranitidine oral preparations

- Ranitidine tablets, effervescent tablets and oral solution are out of stock until further notice due to global regulatory investigations.
- An updated MSN was issued 30 March 2021 (shared previously).

Sodium cromoglicate (Nalcrom) 100mg capsules

- Nalcrom 100mg capsules are out of stock until mid-December 2021.
- Generic sodium cromoglicate 100mg capsules remain available
- An MSN was issued 2 September 2021 (shared previously).

Tapentadol (Palexia) 20mg/ml oral solution

- Batches of Palexia 20mg/ml oral solution have been [recalled](#) due to potential microbial contamination with resupply not expected until mid-2022.
- Palexia 50mg tablets remain available.

Tuberculosis (TB) oral agents

- Several TB medicines have been impacted by supply issues.
- See the table in the MSN for a summary of the supply position with TB medications.
- An updated MSN was issued 21 October 2021 (shared previously).

Varenicline (Champix) 0.5mg and 1mg tablets

- In June, Pfizer, the sole supplier of Champix, stopped the distribution of all Champix 0.5mg and 1mg tablets due to the presence of nitrosamine impurities above Pfizer's acceptable level of daily intake in several lots.
- There is no date for resupply and no availability of varenicline products until further notice. There are currently no alternative suppliers of varenicline tablets.
- The Medicines and Healthcare products Regulatory Agency (MHRA) initiated a class 2 medicines [recall \(EL 21 A/25\)](#) of all strengths of Champix tablets on 14 October 2021.
- An updated [SDA](#) was issued 28 October 2021.

Others

Desmopressin (Octim) 150microgram/actuation nasal spray

- Desmopressin (Octim) 150 micrograms/actuation nasal spray is out of stock until Q3 2023.
- Ferring Pharmaceuticals have recalled Octim nasal sprays as a precautionary measure due to a lower volume of solution being observed and out of specification results of desmopressin acetate and benzalkonium chloride.
- Desmopressin (Octim) 15 micrograms per ml injection remains available and can be prescribed as an alternative.
- An MSN was issued 2 October 2020 (shared previously).

Fentanyl (Instanyl) 50 microgram, 100 microgram and 200 microgram nasal sprays

- Takeda are out of stock of all Instanyl nasal sprays until the end of February 2022.

COMMERCIAL-SENSITIVE

- Immediate release fentanyl products are not interchangeable and when considering switching patients from one product to another, patients should not be converted on a microgram per microgram basis from one to another; it is necessary to titrate the new formulation with advice from a specialist.
- SPS MI have prepared a [clinical memo](#) containing further information.
- The UK recall notice for Instanyl 100microgram can be found [here](#).

Flumetasone/clioquinol (Locorten Vioform) 0.02%/1% ear drops solution

- Advanz, sole supplier, are out of stock of Locorten Vioform ear drops until April 2022.
- Alternative combination steroid and antibacterial ear drops remain available.
- Clinicians should consider whether there is also a clear clinical need to co-prescribe antifungal ear drops, which remain available.
- An MSN was issued 21 July 2021 (shared previously).

Gentamicin 0.3% and hydrocortisone acetate 1% (Gentisone HC) Ear Drops

- Gentisone HC ear drops are out of stock until early January 2022.
- Alternative combination topical ear products containing an aminoglycoside with a steroid remain available.
- An MSN was issued 12 July 2021 (shared previously).

Hydrocortisone 0.2% w/w and lidocaine hydrochloride monohydrate 1.0% w/w (Perinal) cutaneous spray

- Dermal Laboratories are out of stock of Perinal cutaneous spray until July 2022.
- Alternate topical anaesthetic/steroid preparations remain available:
 - Uniroid- HC (cinchocaine hydrochloride 5mg/hydrocortisone 5mg) ointment
 - Scheriproct (cinchocaine hydrochloride 5mg/prednisolone hexanoate 1.9g) ointment

Lidocaine 5%/hydrocortisone 0.275% (Xyloproct) ointment

- Aspen Pharmacare are currently out of stock until March 2022.
- Alternate topical anaesthetic/steroid preparations remain available:
 - Uniroid- HC (cinchocaine hydrochloride 5mg/hydrocortisone 5mg) ointment
 - Scheriproct (cinchocaine hydrochloride 5mg/prednisolone hexanoate 1.9g) ointment

Vaccines

For updates on vaccine supply positions, please refer to PHE's [Vaccine Update Bulletin](#).

Discontinuations

Barium sulfate (Baritop 100) 100% oral suspension and Barium sulfate (Baritop Plus 94.6) 94.6% granules for suspension

- Baritop 100 and Baritop Plus have been discontinued with remaining stock expected to be exhausted by late March 2022.

COMMERCIAL-SENSITIVE

- Alternative formulations of barium sulfate for X-ray contrast remain available and can support an uplift in demand.
- An MSN was issued 15 November 2021 (attached).

Carbimazole 20mg tablets

- Activase have discontinued carbimazole 20mg tablets.
- Supplies remain available from other manufacturers.

Desmopressin (DDAVP) 0.01% w/v intranasal solution

- DDAVP 0.01% w/v intranasal solution has been discontinued.
- Supplies of desmopressin 100micrograms/ml nasal spray (10 micrograms per actuation) remain available from Aspire Pharma Ltd and can fully support demand during this time for patients on doses ≥ 10 microgram.
- Unlicensed imports of desmopressin 100micrograms/ml intranasal solution can be sourced.
- An MSN was issued 15 October 2020 (shared previously).

Sodium cromoglicate (Intal) CFC-free 5mg inhaler

- Sanofi are discontinuing Intal CFC-free 5mg inhalers with stock expected to be exhausted by the end of January 2022.
- No alternate chromone inhalers are available.
- An MSN was issued 18 November 2021 (attached).
